

## THE GREAT OAK HOUSE WOODED ACRES CUMBERLAND, RI

### QUICK FACTS:

- SIPs for wall: 6”
- Energy Star rated
- SIP Supplier: Branch River Plastics  
([www.branchriver.com](http://www.branchriver.com))
- Developer: MEJJ Development  
([www.mejjdevelopment.com](http://www.mejjdevelopment.com))

MEJJ Development is a family-founded and managed real estate development company dedicated to excellence in the construction of residential homes and property development. Their mission is to build high quality custom green homes and to provide uncompromising personal integrity and attention to their clients. R-Control SIPs (Structural Insulated Panels) were selected in the design of their Wooded Acres at Overhill Development. R-Control SIPs provide an energy efficient wall system, reduce air leakage, and help control and lower heating and cooling costs.

R-Control SIPs not only provide a strong structural system that resist loads caused by wind, but they are also environmentally friendly. The structural skins of R-Control Structural Insulated Panels are made from renewable wood resources, and the Foam-Control EPS with Perform Guard core is termite resistant and contains no CFCs, HCFCs, HFCs, or formaldehyde. For year and years, this R-Control structure will save fuel used for heating and cooling and reduce pollutants.

# PROJECT PROFILE

## CONTROL, NOT COMPROMISE.

**R-Control SIPs are engineered and custom manufactured to give you control over every aspect of your project.**

- Unlimited design possibilities
- Superior strength
- Energy efficiency and insulation
- Easy to use, fast, and efficient
- Lower labor costs
- Reduces waste
- Warranted system

R-Control SIPs

CONTROL YOUR MATERIALS. CONTROL YOUR R-VALUES. CONTROL YOUR PROCESS. CONTROL YOUR COSTS. CONTROL YOUR TIME

DON'T COMPROMISE YOUR QUALITY. DON'T COMPROMISE YOUR ENERGY EFFICIENCY. DON'T COMPROMISE YOUR STRUCTURAL INTEGRITY.
